FoShan GuoXiang Jialu Tech. Co.,Ltd

the workshop
with its legacy
of craftsmanship
and traditional
expertise,
ensures that the
Made in Italy
Handed is
down from
generation
to generation.

Nell'azienda di oltre 3600 mq., si realizzano collezioni di altissima qualità e personalizzazioni esclusive.

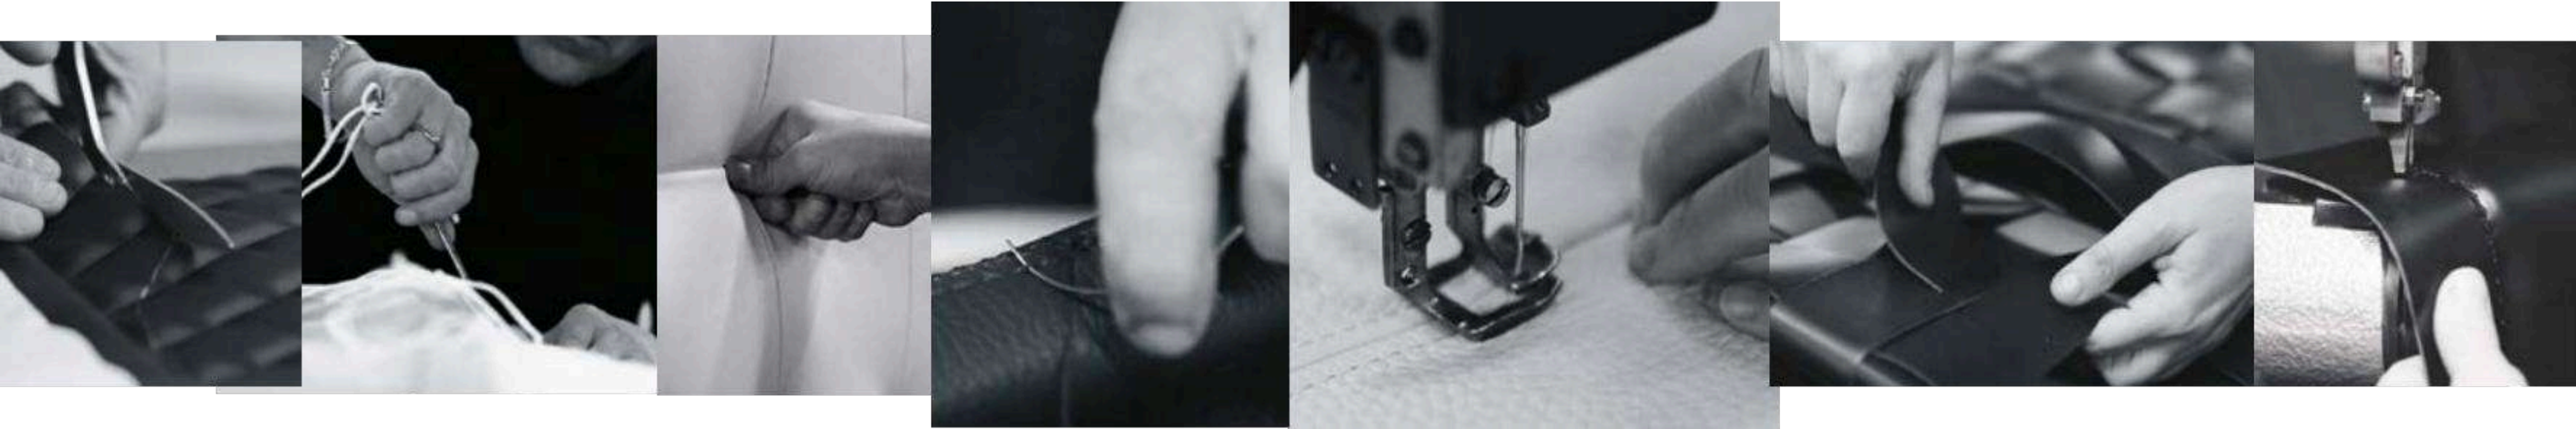

L'azienda dispone di ampi spazi per tutte le fasi produttive che si svolgono completamente al suo interno garantendo il MADE IN ITALY per l'intero processo produttivo.

Dispone inoltre di un elegante show-room in continua evoluzione per presentare novità e collezioni che si sviluppano durante l'anno.

L'obiettivo aziendale è di continuare a produrre imbottiti di alta qualità senza cedere alla tentazione di abbassare il livello di ricerca qualitativa per far fronte alla crescente competizione internazionale. Garantire al cliente un servizio attento, rapido e flessibile, è consentito dalla semplificata organizzazione d'ii ufonr' nimorep rreisspao ste familiare che permette efficaci e puntuali in tempi molto brevi, nonchè di accogliere immediatamente preziosi suggerimenti derivanti dalle sempre nuove esigenze dei vari mercati internazionali.

In der mehr als 3600 m2 großen Firma werden Kollektionen höchster Qualität und exklusive individuelle Gestaltungen hergestellt. Die

ausreichendplatzfüralleproduktionsphasen, die zur Gänze im Inneren der Firma ablaufen und somit "MADE IN ITALY" für den gesamten Herstellungsprozess garantieren. Zani verfügt darüber hinaus über einen eleganten Show-room, der sich laufend verändert, um jene Novitäten und Kollektionen zu präsentieren, die im Lauf des Jahres entwickelt werden. Ziel der Firma ist es, weiterhin polstermöbel von hoher Qualität herzustellen, ohne der Versuchung zu unterliegen, aufgrund der Konfrontation mit dem internationalen Wettbewerb das qualitative Forschungsniveau zu senken. Die vereinfachte Organisation eines Familienunternehmens ermöglicht es, den Kunden einen aufmerksamen, schnellen und flexiblen Service zu bieten, effiziente und zeitgerechte Antworten in kurzer Zeit zu liefern sowie wertvolle Anregungen, die aus den stets neuen Bedürfnissen der verschiedenen internationalen Märkte erwachsen, unverzüglich zu sammeln.

High quality leather is an integral part of design.

Lavorare bene le pelli di qualità è la nostra missione.

I materiali di alta qualità sono parte integrante del progetto, indispensabili per dare valore e qualità ai prodotti.

Utilizziamo esclusivamente pelli di alta qualità, di esclusiva provenienza europea, per questione di integrità.

L'aspetto delle pelli, dipende infatti dal modo in cui gli animali sono allevati. In Europa gli allevamenti sono tutti recintati e ben tenuti, gli animali hanno quindi minori probabilità di graffiarsi, ferirsi e essere punti da insetti e quindi procurarsi segni indelebili al manto.

La concia è la lavorazione delle pelli che ne consente la conservazione e ne dona la resistenza nel tempo. Dopo la pulitura le pelli vengono immerse in bottali con calce e solfuro di sodio per poi essere "spaccate", ovvero tagliate orizzontalmente ottenendo due prodotti: le pelli fiore e le croste.

La parte superficiale costituisce la parte più pregiata denominata appunto pieno fiore. La parte sottostante, detta "crosta", viene lavorata per ottenere prodotti di qualità decisamente inferiore, dieci volte meno resistenti del fiore.

Tutti i nostri prodotti sono realizzati interamente con pelli di qualità.

Our mission is to process quality leather to the highest standards. High quality raw materials are an integral part of the design, essential to give value and quality to the end product.

As a matter of integrity, we use exclusively European, top quality hides. The appearance of a hide depends on the way the animal has been raised. In Europe, livestock farms are all fenced and well-kept, so that animals are less likely to injure or scratch themselves or be stung by insects, leaving indelible marks on the hide.

Tanning is the process that preserves the leather and makes it resistant over time. After cleaning, the hides are immersed in vats of lime and sodium sulphide, and then spliced, cut horizontally to obtain two products – full grain and split grain leathers.

The upper layer, called full grain, is the most sought-after part. The lower part, known as "split grain" is processed to make products of decidedly inferior quality, ten times less resistant than full grain.

All our products are made entirely with top quality leathers.

Unsere Mission lautet, qualitatives Leder gut zu verarbeiten.

Hochqualitatives Material ist integraler Bestandteil der Projekte und unerlässlich, um den Produkten Wert und Qualität zu verleihen.

Aus Gründen der Integrität verwenden wir ausschließlich hochwertiges Leder europäischer Herkunft.

Das Aussehen des Leders ist von der Art, wie die Tiere gezüchtet werden, bestimmt. In Europa sind alle Tierzuchtbetriebe umzäunt und gut gepflegt, es ist somit weniger wahrscheinlich, dass die Tiere Kratzer erleiden, sich verletzen oder von Insekten gestochen werden und dadurch Spuren auf der Tierhaut erhalten bleiben.

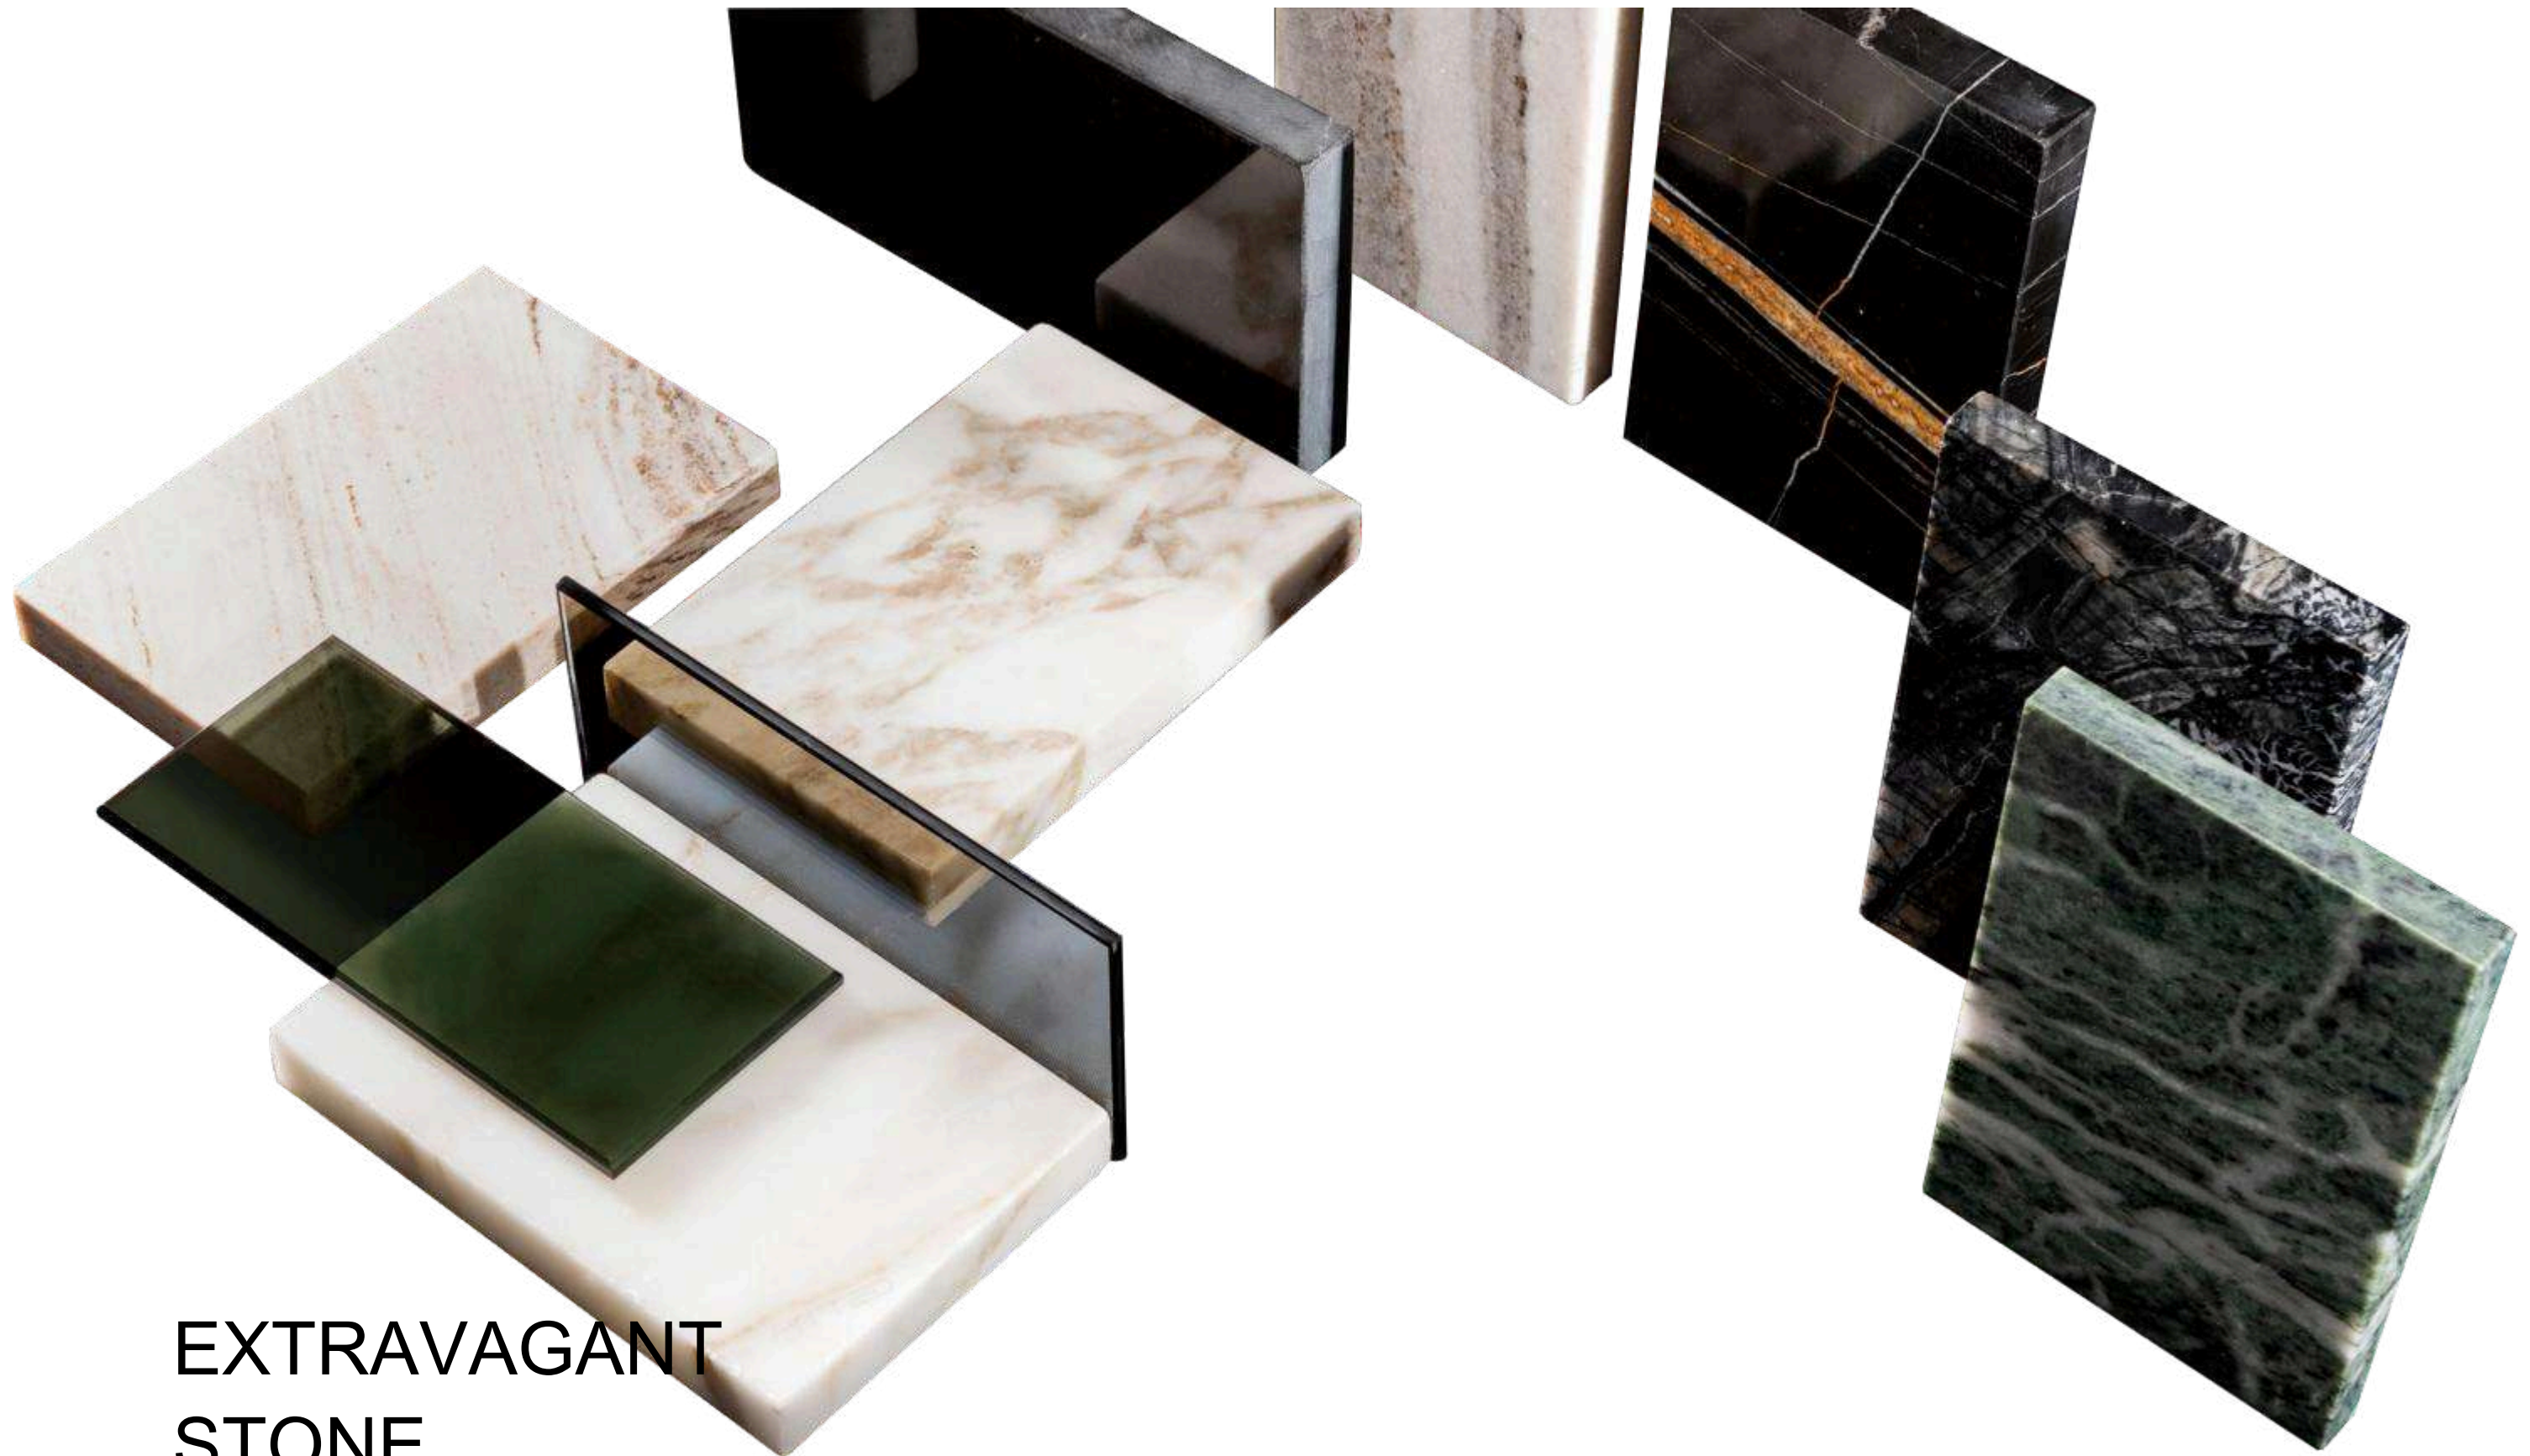

Das Gerben bezeichnet die Bearbeitung der Tierhaut. Dadurch wird der Rinde ein Spalt eingebracht, um sie zu erhalten.

Tierhaut in Behälter mit Kalk und Natriumsulfid getaucht. Dann wird sie „gespalten“ bzw. horizontal durchgeschnitten, um zwei Produkte zu erhalten: den Narbenspalt und das Leimleder.

Die Oberfläche bildet den wertvollsten Teil und wird Narbenspalt bezeichnet. Der darunterliegende Teil namens Leimleder wird bearbeitet, um Produkte von geringerem Wert

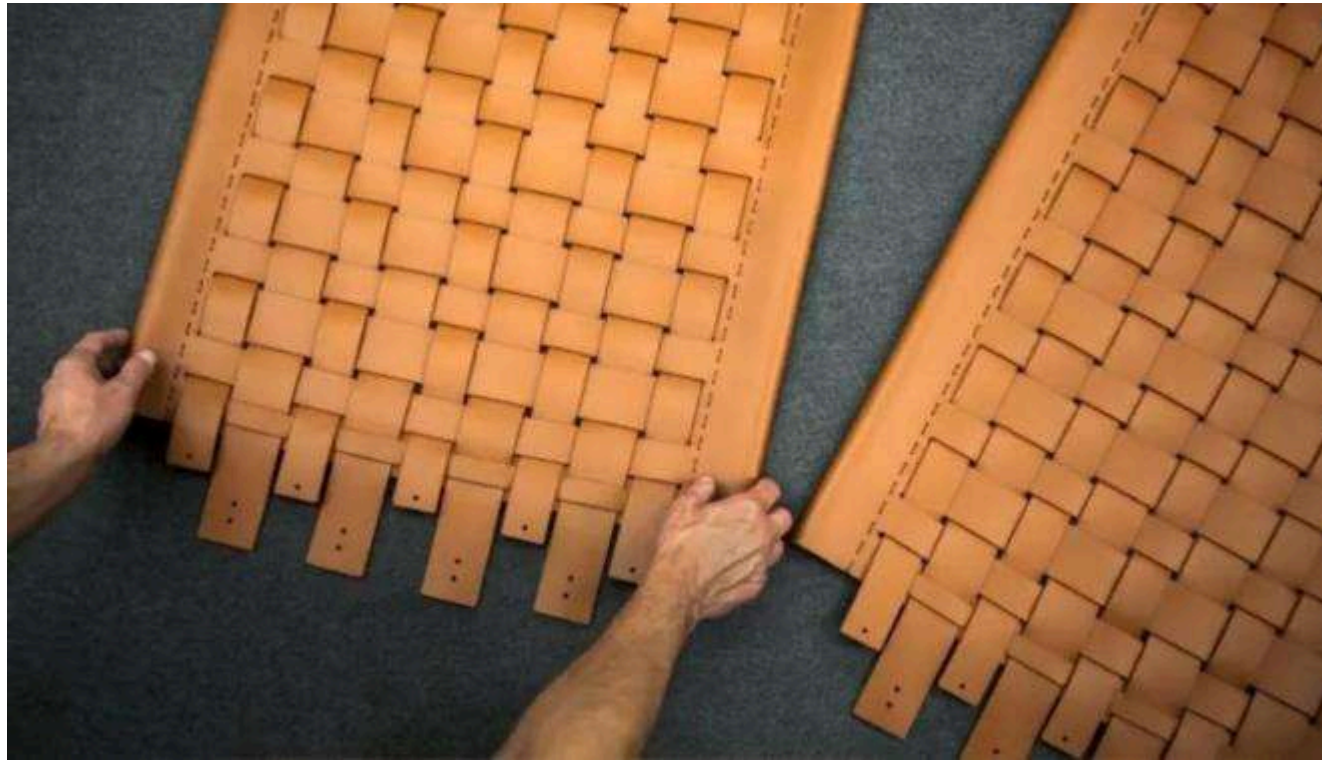

zu erhalten, die eine zehnmal geringere Widerstandskraft

aufweisen als der Narbenspalt. Alle unsere Produkte sind zu 100% aus hochwertigem Leder hergestellt.

EXTRAVAGANT STONE

Stone is a natural and rare top cultural stone variety, designed and applied to various corners with its natural texture, delicate texture, and rich and diverse colors. Each luxury stone has a unique style and artistic temperament, maximizing the cultural taste and artistic perception of the decoration space.

The eternal design method is composed of a balance of lightness, delicacy, and timelessness, never to be obscured by dust. This is a low-key and restrained condensed aesthetics, a low-key and evergreen method. The most important thing is the comfort of touch and vision. Anyone who gets stuck in a BBORR sofa will experience a warm and protective feeling surrounded by familiar armchairs, coffee tables, and accessories, which can create a warm cocoon effect.

Excellent craftsmanship

Home accessories are made of saddle leather and logs, combined with exquisite craftsmanship, bringing people a unique sense of beauty and practicality. Integrating the beauty of modern style and Eastern tone, the craftsmanship of saddle leather and wooden design are combined to create a space full of taste and charm with a lightweight effect and fashionable visual presentation.

LIVING ROOM SERIES

客厅系列

美好是为悦的关系、会面、交流而服务的，它难以定义却一见即如。一件产品很美好，因为它设计精巧且工艺精良，功人而解心，令人沉那于此境界之中。

Every inch and corner of life

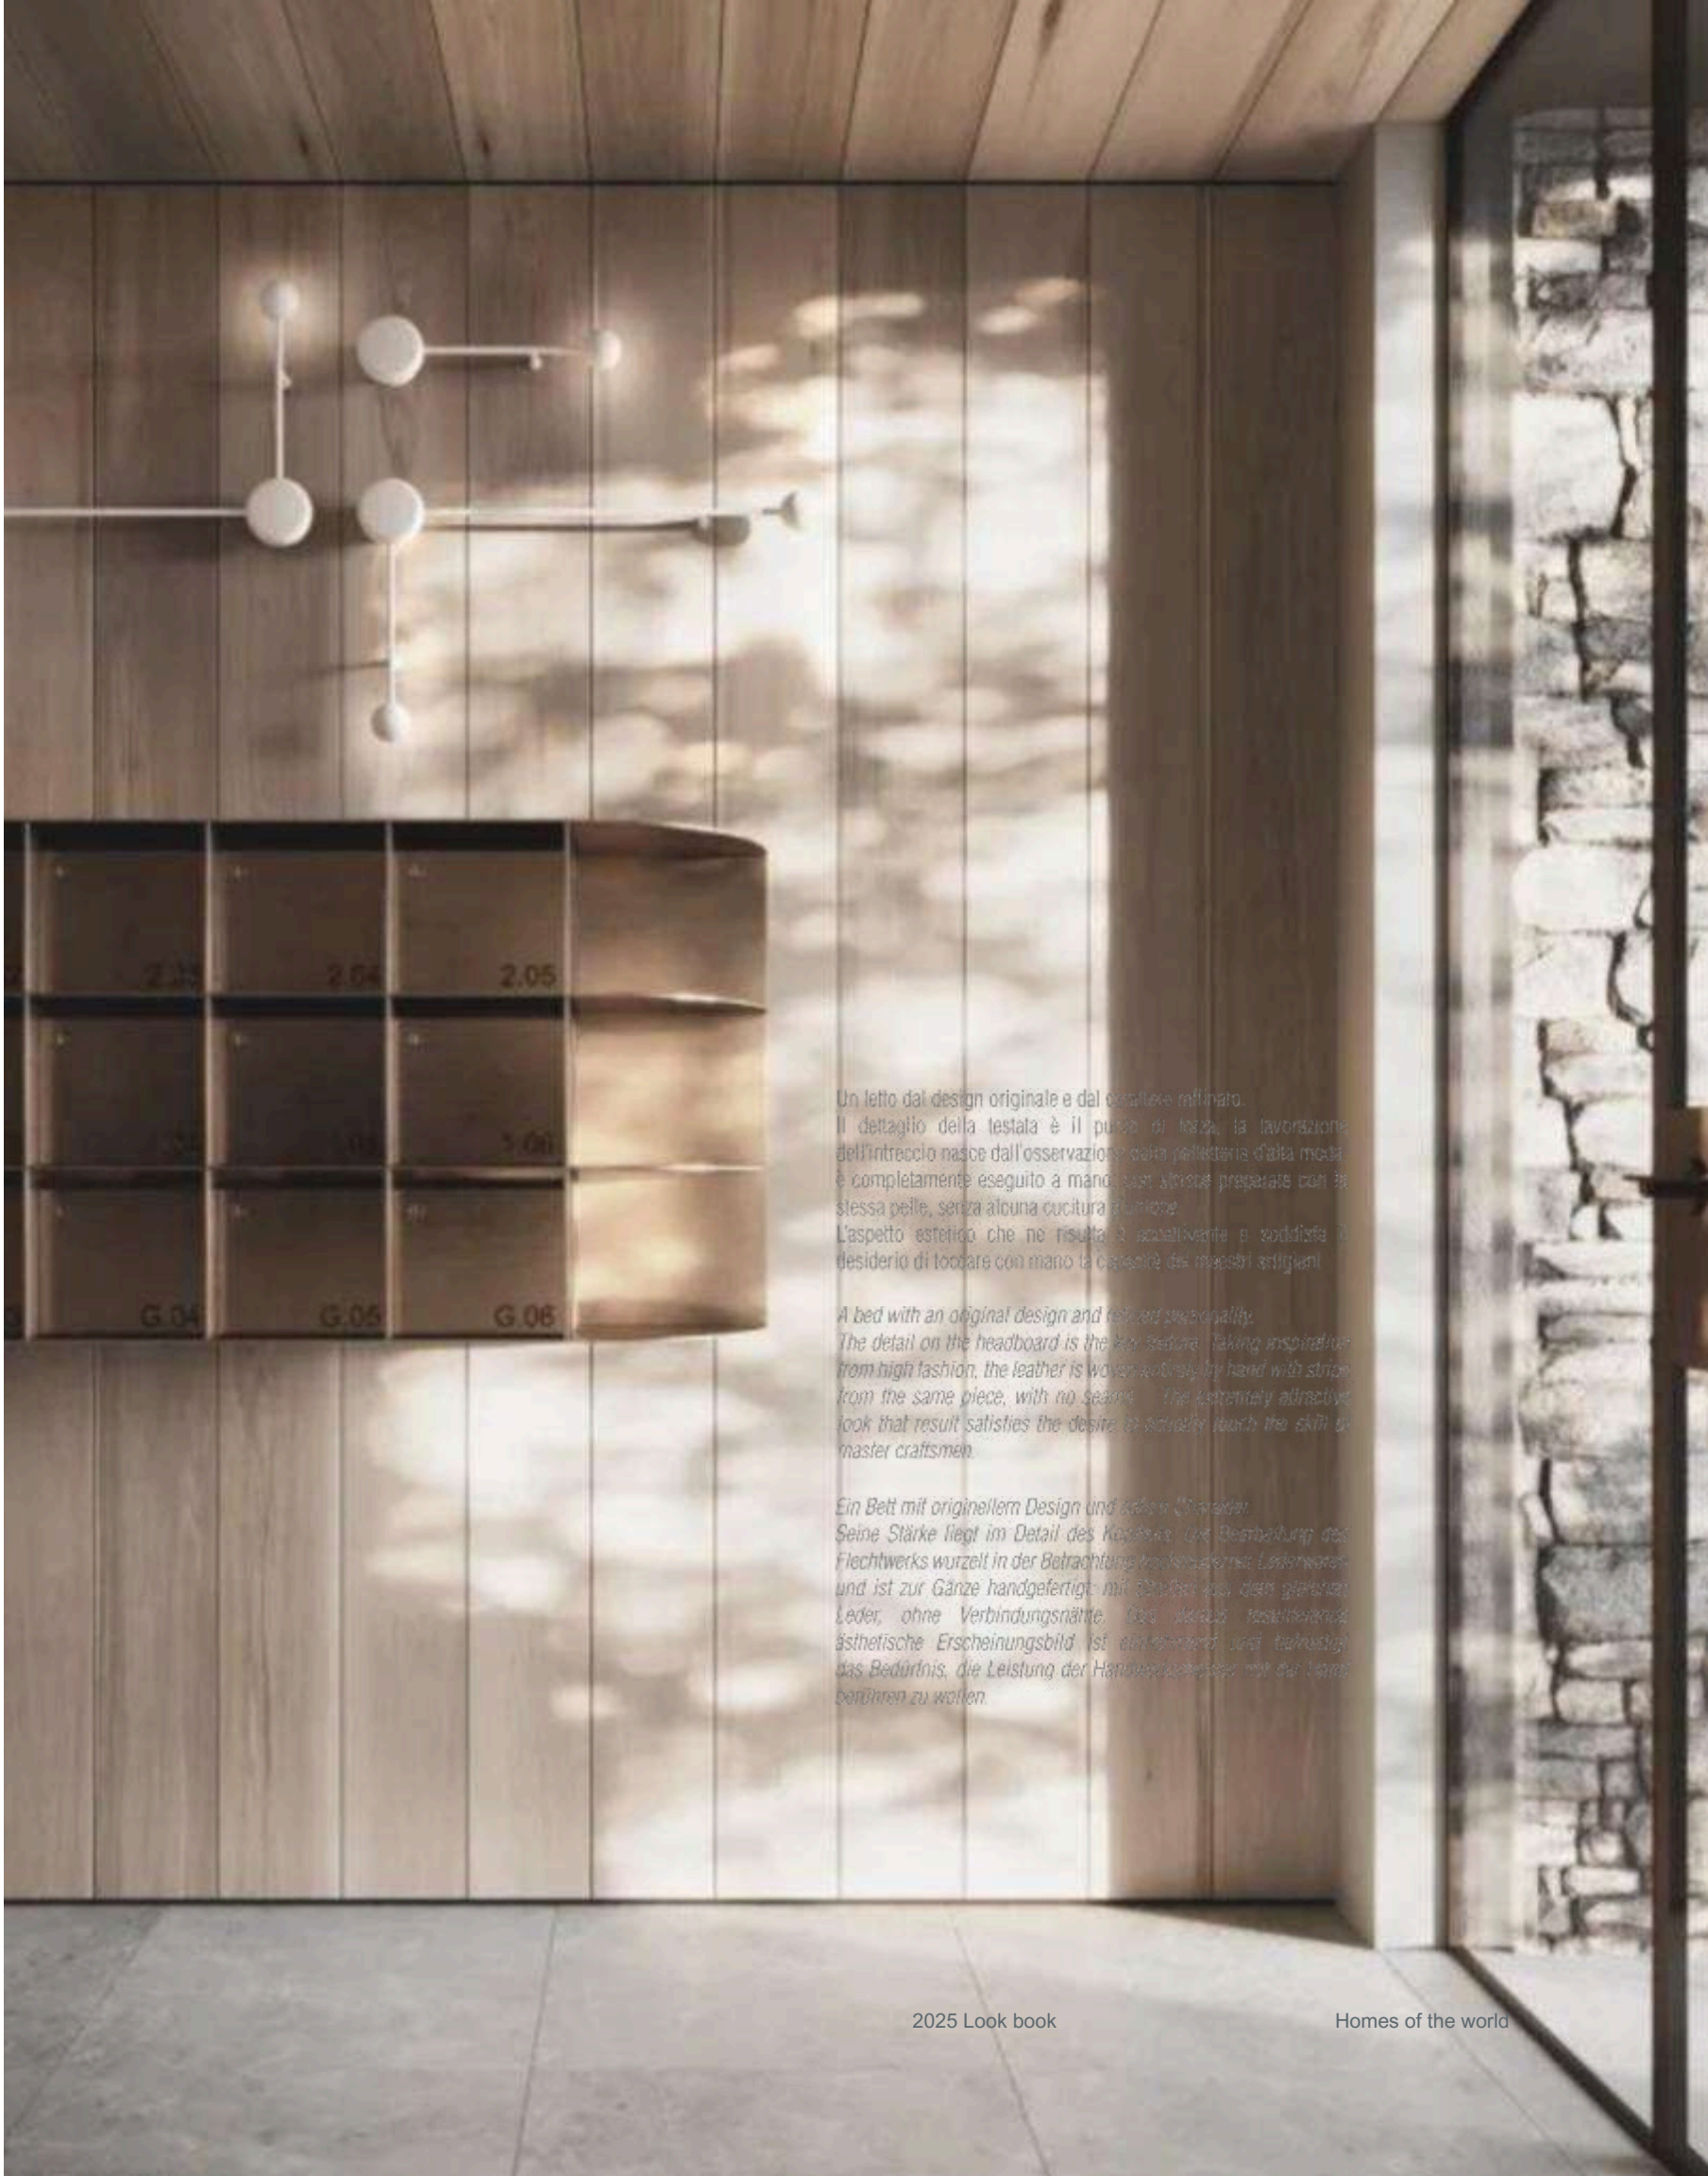

Lounge chair residential project

Un letto dal design originale e dal carattere raffinato.
Il dettaglio della testata è il punto di forza: la lavorazione dell'intreccio nasce dall'osservazione della pelletteria d'alta moda e completamente eseguito a mano: nastri stesi e preparati con la stessa pelle, senza alcuna cucitura pluriore.
L'aspetto estetico che ne risulta è affascinante e soddisfa il desiderio di toccare con mano la maestria dei maestri artigiani.

A bed with an original design and refined personality.
The detail on the headboard is the key feature: taking inspiration from high fashion, the leather is woven entirely by hand with strips from the same piece, with no seams. The extremely attractive look that results satisfies the desire to actually touch the skill of master craftsmen.

Ein Bett mit originellem Design und edlem Charakter.
Seine Stärke liegt im Detail des Kopfendes: die Bearbeitung des Flechtwerks wurzelt in der Betrachtung hochkarätiger Lederwaren und ist zur Gänze handgefertigt mit Streifen aus dem gleichen Leder, ohne Verbindungsnahte. Das daraus resultierende ästhetische Erscheinungsbild ist einsehbar und befriedigt das Bedürfnis, die Leistung der Handwerksmeister mit der Hand berühren zu wollen.

The new sofa and armrest design are inspired by Burberry's graphic elements. In terms of design, there is not too much emphasis on minimalism, and comfort is the top priority. The tone is relaxed yet noble and elegant, graceful but without a sense of distance. Adhering to luxury and durability in texture, making art into daily necessities and luxury goods into household items, has always been the quality lifestyle advocated by Burberry.

Chair Series | 椅子原创系列

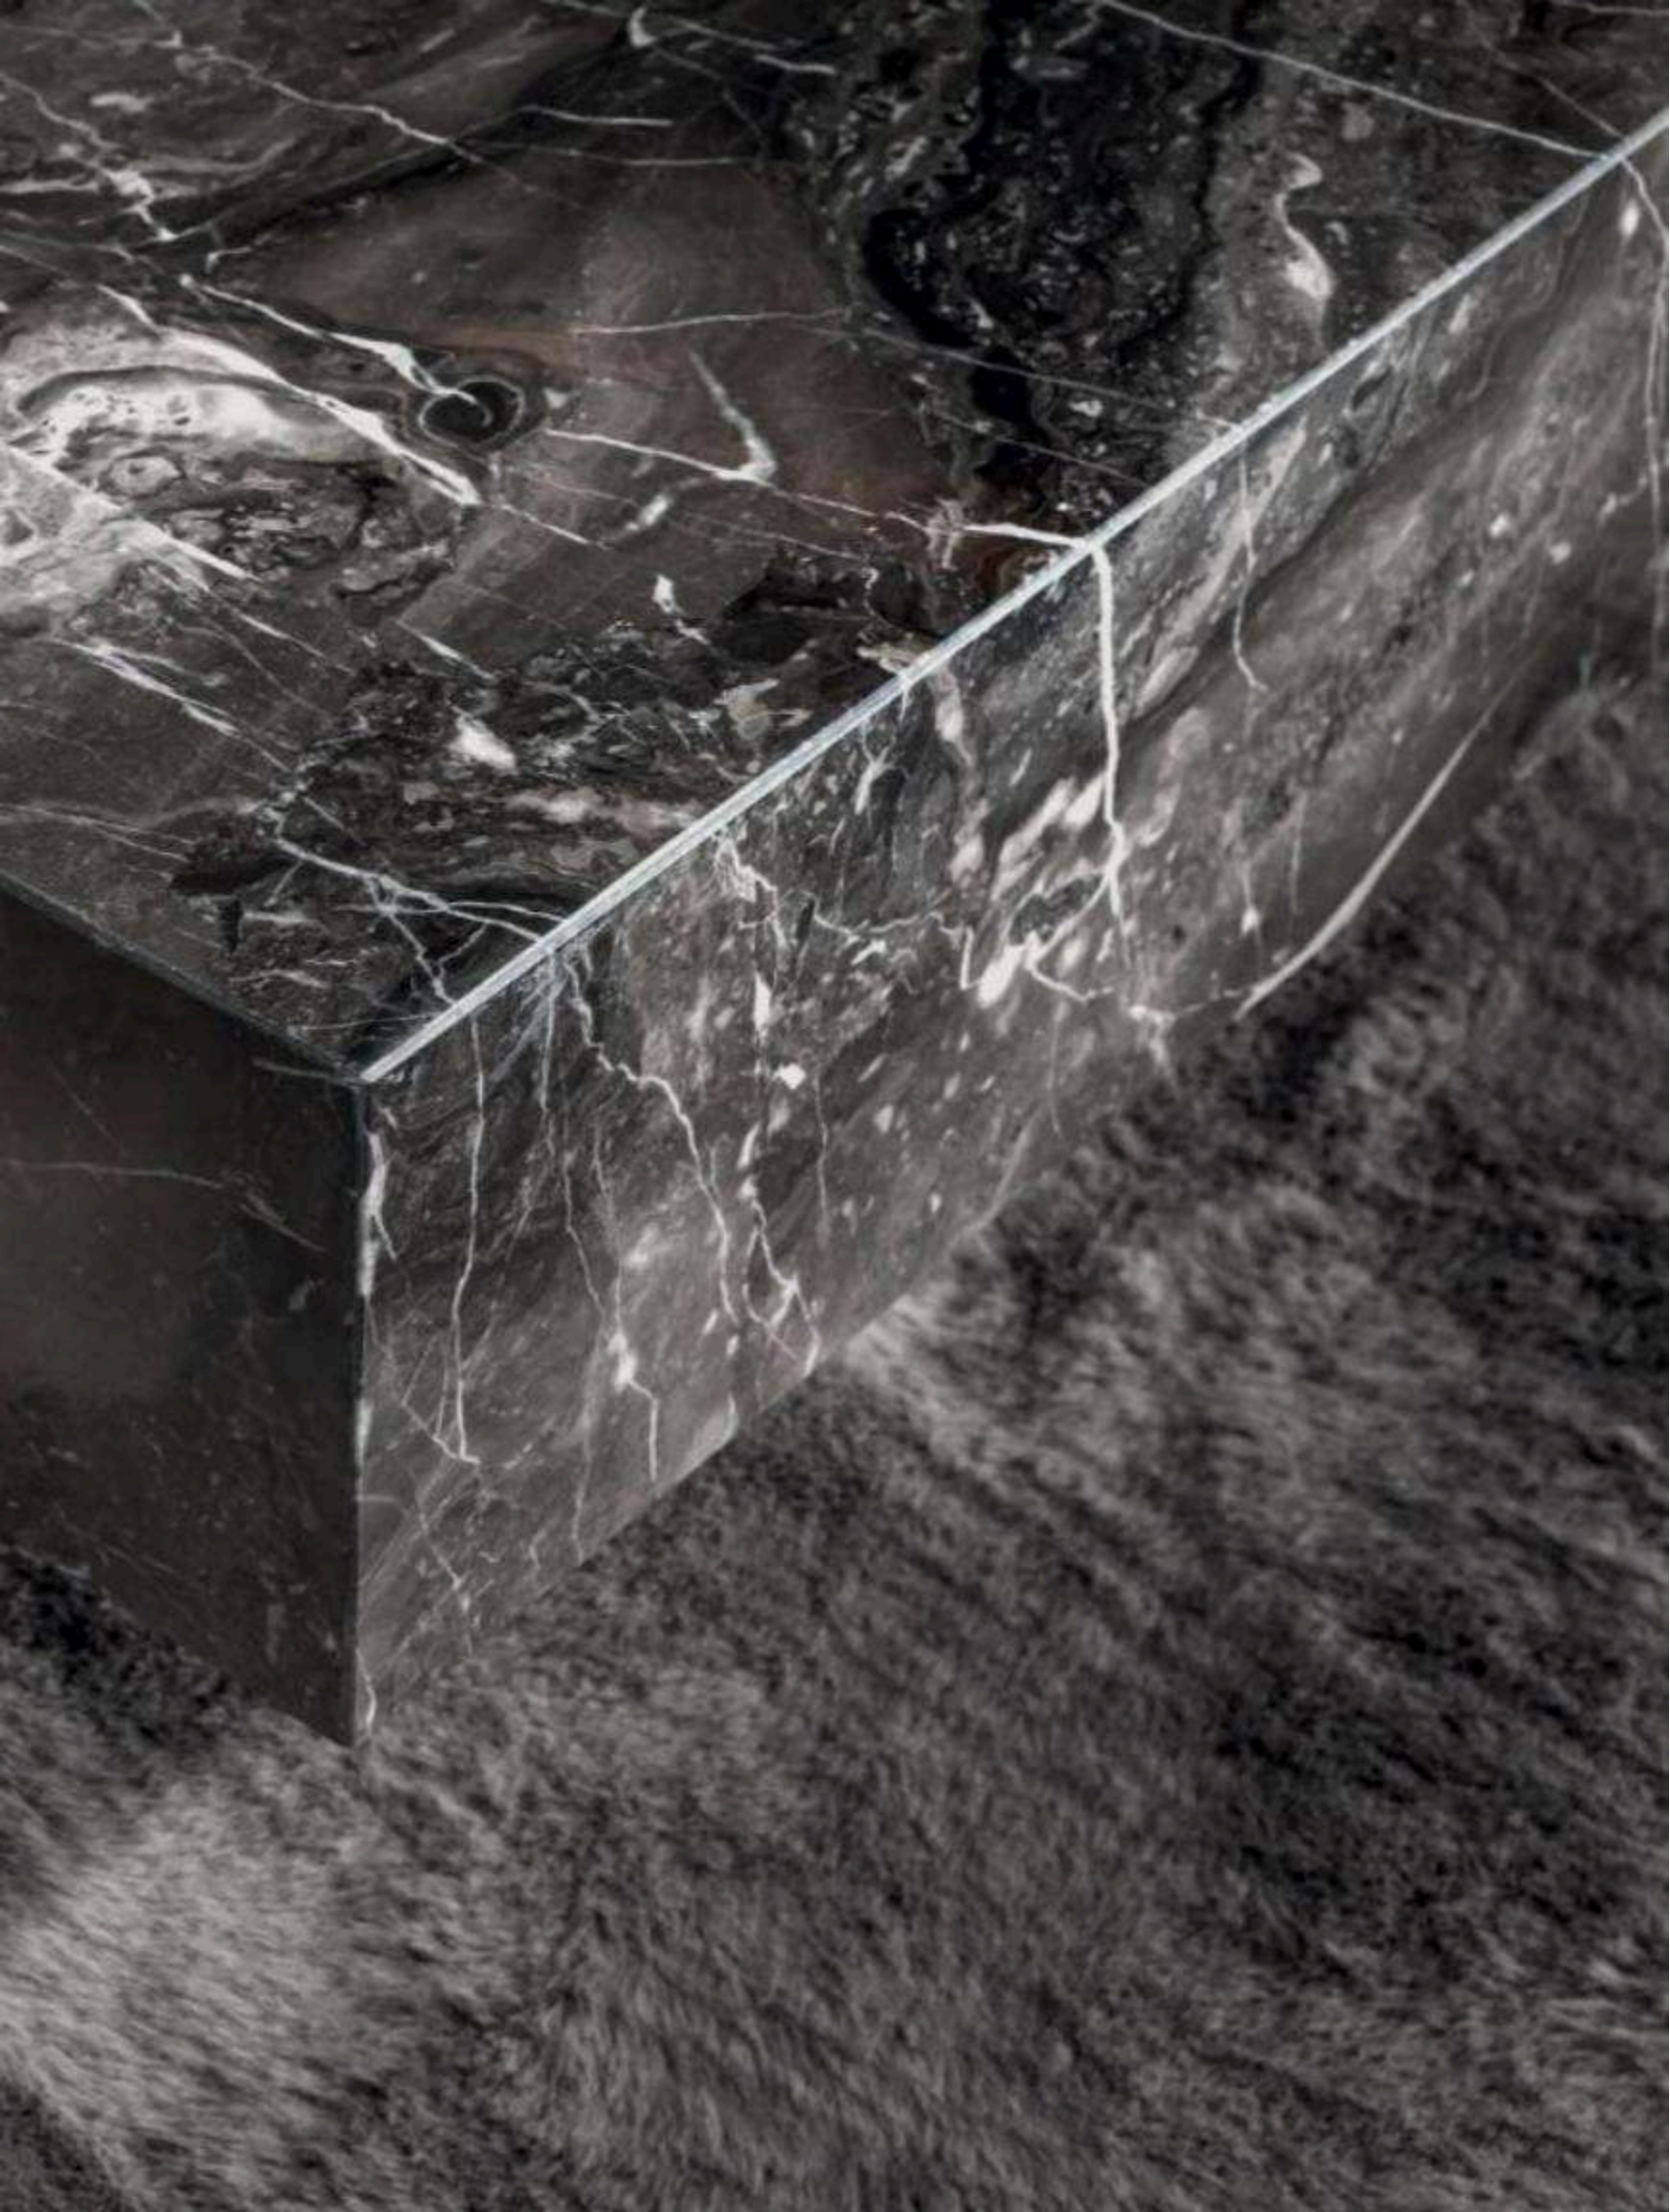

Chair Series | 椅子原创系列

Original armchair with flexible rotation. High end cotton and linen combined with frosted leather, simple and fashionable. The design inspiration for this chair comes from contemporary architecture, where the lines always bring infinite vitality and are full of power, symbolizing the future.

The designer created a flexible and rotating leisure chair through the flexible design of curved lines. The cotton and linen color is gray, with a grainy texture and a fashionable temperament, combined with the appropriate benefits of contemporary lines.

Tea Table Series

茶几系列

茶几希望尽可能多地展示材料的原始质感
大理石的桌面和桌腿被精心打磨出圆润的倒角
